The quietest high-pressure cleaners in the world.

So many accessories – all as standard!

Kärcher would not be Kärcher if the K 3.00 and the K 4.00 were not equipped with numerous add-on features. These new high-pressure cleaners are not just quieter, they also offer an attractive range of powerful standard extras!

Watercooled motor
K 3.00 EcoSilent and K 4.00 EcoSilent are equipped with a watercooled motor and therefore especially energy-efficient, durable and lightweight.

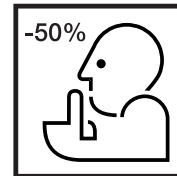

Quick Connect
As both ends of the high-pressure hose are fitted with the Quick Connect system, you can connect the hose to the product and high-pressure gun in no time at all.

Trigger gun with Quick Connect
Also a standard accessory: the innovative trigger gun for connecting the high-pressure hose in no time at all.

K 3.00 EcoSilent and K 4.00 EcoSilent. The quietest high-pressure cleaners in the world!

100% power – 50% noise reduction!
It's just unbelievable what the K 3.00 and the K 4.00 can do! Most notably, Kärcher's two new models are especially silent: With a noise reduction of **50%** – compared to conventional high-pressure cleaners – cleaning is relaxed and stress free.

Ideal for use on weekends when you have time for cleaning while your neighbours want to enjoy their well-earned leisure time. The **watercooled motor** and the **innovative casing insulation**, both designed by Kärcher, reconcile both worlds.

Of course, you continue to benefit from the proven and tested design of the world's number one high-pressure cleaner brand: maximum efficiency, excellent ergonomics, numerous extras and much more!

Vario Power spray lance
For your convenience: By twisting the Vario Power spray lance the pressure can be adjusted from low to high.

Dirt blaster
Whenever you have to deal with stubborn dirt, the dirt blaster with rotating pencil jet gets things clean. Ideal for mossy and weathered surfaces.

Intelligent storage
The hose and gun holder as well as the soft bag at the rear of the machine permit compact storage of all accessories.
