HYW4000P 4000psi Petrol Pressure Washer

- A petrol powered pressure washer powered by a 14hp, 4-stroke Hyundai engine.
- Provides a maximum output of 4000PSI, and a massive flow rate of 15L/min, built for the toughest of cleaning tasks.
- Favoured by cleaning professionals and used in industrial, agricultural and commercial environments.
- The largest Hyundai petrol pressure washer, but mounted on a solid base with large wheels that have exceptional balance.
- This base makes this 60.6kg pressure washer easy to transport from one cleaning job to the next.
- The heavy-duty, Italian-made Annovi Reverberi (AR) pump is perfect for constant hard work and reliable performance.
- The 15m hose and lance are included as standard and changing the attachments couldn't be made easier due to the quick release fittings and connections.
- Also features a thermal relief valve which acts as a failsafe for when the water in the Annovi Reverberi pump becomes too hot.
- Supplied with a turbo nozzle that is designed to increase efficiency and shorten cleaning time by up to 25%
- All Hyundai pressure washers are covered by a 3 Year Platinum Hyundai Warranty.

Specifications

MODEL	HYW4000P
ENGINE TYPE	Machine R420 / Manual HY420
ENGINE SIZE	420cc
OIL CAPACITY	1100ml
FUEL CAPACITY	6.5L
FUEL TYPE	Unleaded Petrol
NOISE LEVEL	112dB (A)
RATED SPEED	2500rpm
RATED POWER	14hp / 10.44kW @ rated power
DRIVE TYPE	Direct
START METHOD	Recoil
MAX PRESSURE	4000psi
FLOW RATE	15L/min
UNLOADER VALVE	Built-in
PUMP TYPE	AR Triplex Pump - RSV4G40
FRAME	Tubular Steel
BOX DIMENSIONS L x W x H	810mm x 640mm x 660mm
GROSS WEIGHT	66kg
DRY WEIGHT	60.6kg
FULLY ASSEMBLED DIMENSIONS L x W x H	530mm x 620mm x 1050mm
