ECO-Matic Product Features

Engineered from the highest quality recycled plastic using environmentally sustainable ReFlo Technology, the ECO-Matic range benefits from 100% Structofoam construction, making it tough, easy to clean and built to last.

Attention to detail and practical engineering ensure complete customer satisfaction in operation, versatility and convenience.

On-board Waste Facility
Convenient, fully-lidded 120L waste facility; right there when you need it.

Buffer Kit
Non-marking rotating buffers for extra wall and door protection.

Shelf Storage
Open shelf storage for easy-access to all your cleaning equipment and supplies on the move.

Industry Colour-coding
Industry colour-coding for effective infection control.

Drawer Storage
Enclosed drawer storage to keep supplies tidy and out of sight.

Security Options
Peace of mind in public areas with optional security features.

Twin Waste Option
Choose between 120L or 2 x 70L waste options.

Optional Floor Sign
Compact and easy to store design.

* Stated figure represents maximum use of recycled plastic in ReFlo Janitorial range, not including kits and accessories.

Following extensive research and testing, we have introduced ReFlo Technology to our VersaCare range.

ReFlo Technology uses the highest quality recycled plastic within our manufacturing processes, delivering the same Numatic reliability, durability and quality as always.

Providing a tough Structofoam construction, ReFlo Technology ensures our products are both sustainably engineered and built to last.

Quick and Easy Assembly

Get straight to business; each model can be quickly and easily assembled in less than 15 minutes.
